Workshop

Subject:

- NodeJS Interview Question

Learning Goals

- Preparing for NodeJS Interview Questions

Introduction

- Preparing for interview questions that may arise during job application processes

Prerequisites

- Answer by discussing among yourselves.

Lets start

1. Explain Middleware in Express.js.

2. What is routing in Express.js, and how is it implemented?

3. How does error handling work in Express.js?

4.What is the purpose of the Express.js app.use() method?

5.Explain the role of the Express.js response object.

6.What is Sequelize, and what is its primary purpose?

7.What is pagination, and how can you implement it in a database query with Sequelize or Mongoose?

8.How do you use the 'where' clause in Sequelize to create search queries?

9.Explain JSON Web Tokens (JWT) and their role in web applications.

10.What are some common security considerations when using JWT for authentication?

Teamwork

Subject:

- Hotel Api Project

## Learning Goals

- Consolidating Pizza Api

Introduction

-This document focuses on the consolidation of the Pizza API . By merging these two distinct systems, we aim to optimize resources, enhance efficiency, and deliver a more cohesive and effective solution.

Prerequisites

- The folder structure of the Pizza Api project should be used.
- At the same time, we need to usage of ERD diagram.

Lets start

We want a Hotel Api project from you. You can act in accordance with the erd diagram we shared in this project. For convenience, you can use the pizza api file structure.

☺ **Thanks for Attending** ✍
